EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Patrick J. Finnan on December 7, 2004.

2. The application has been amended as follows:

In the claims:

Claim 6, line 3: "detector" has been changed to "code detector"; line 16: "portion" has been changed to "current portion"; line 17: "the portion" has been changed to "a delayed portion"; line 19: "a delayed" has been changed to "the delayed"; and line 20: "a current" has been changed to "the current".

Claim 10, line 3: "modulus" has been changed to "second modulus"; line 6: "the combined" has been changed to "a delayed combined"; and line 8: "a the" has been changed to "the".

Claim 11, line 2: "detector" has been changed to "code detector"; and line 4: "finder" has been changed to "finder unit".

Claims 13-15, line 1: "(Withdrawn)" has been changed to "(Cancelled)".

Art Unit: 2637

Claim 16, line 1: "a code" has been changed to "a coded signal having a long code composed of a plurality of dithered codes"; and line 3: "a received" has been changed to "the coded"

3. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or suggest, alone or in a combination, among other things, at least a dither code detector and its method as a whole, the combination of elements and features, which includes a first memory storing a current portion of the correlation signal at a location according to a first count of a first modulus corresponding to a dither of at least a first one of the dithered codes and outputting a delayed portion of the correlation signal when the first count next addresses the location according to the first modulus, and a combiner adding the delayed with the current portion of the correlation signal to generate a first combined correlation signal as cited in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Edith M Chang whose telephone number is 571-272-3041. The examiner can normally be reached on M-F.
